MILK PRICE HIGHLIGHTS

Class I prices: Early July prices paid by dealers for milk used for fluid purposes (Class I) averaged $6.90 per hundredweight for about 150 markets, according to the Crop Reporting Board. This was 2 cents more than in June and 23 cents above a year earlier. Regional averages were above a year earlier and ranged from 7 cents in the Pacific Region to 31 cents in the West North Central Region.

Store milk prices: Store prices to consumers in 25 major cities in early July averaged 57 cents per half gallon for the most common grade of whole milk. This was the same as May and June this year but nearly 3 cents above July 1969.

Home-delivered prices: Home-delivered milk averaged nearly 65 cents per half gallon in July for 25 major cities. This was about the same as May and June this year but nearly 3 cents above July 1969. The home-delivered prices represent list prices before deductions for quantity and other discounts.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Preliminary May sales: Preliminary data on total sales of fluid dairy products during May in 66 marketing areas averaged nearly 3 percent below a year earlier.

April sales: Revised April sales of fluid products in regulated markets (61 Federal and 5 State) averaged more than 1 percent above a year earlier.

Whole milk sales during April were down 1 percent from April 1969.

Low-fat and skim milk sales for April were up 10 percent from a year earlier.

Milk and cream mixtures sales (mostly half and half) continued below the 1969 level. Cream sales for April were nearly 7 percent below a year earlier.

Milk receipts: May receipts of milk from producers at plants regulated for 68 markets were up 3 percent from a year earlier. The number of producers delivering milk to plants for the same markets was down less than 2 percent from May 1969.

Milk production: June 1970 milk production for the United States was estimated at 10.75 billion pounds, about the same as a year earlier. Output for June provided 1.74 pounds of milk per person daily for all uses, compared with 1.73 pounds last month and 1.76 pounds a year earlier. Production during the first half of 1970 was about 0.3 percent more than a year earlier.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.
2/ Markets located in the New York-New Jersey Federal Order (Middle Atlantic) revised F.O.B. city minimums changed to agree with specified freight zones under the order. East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.
2/ Markets located in the New York-New Jersey Federal Order (Middle Atlantic) revised f.o.b. city minimums changed to agree with specified freight zones under the order. East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.
3/ Revised.

Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.

2/ Markets located in the New York-New Jersey Federal Order (Middle Atlantic) revised f.o.b. city minimums changed to agree with specified freight zones under the order. East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.

This average was 6 cents above September and 18 cents above a year earlier. Gains ranged from 6 cents in the Pacific Region to 29 cents in the West North Central and the East South Central Regions.

Store milk prices: Store prices to consumers in 25 major cities in early October averaged 58.0 cents per half gallon for the most common grade of whole milk. The price was 0.5 cent higher than September and about 3.4 cents above a year earlier.

Home-delivered prices: Prices for home-delivered milk averaged 65.0 cents per half gallon in October for 25 major cities. This price was 0.2 cent above September and 2.1 cents above October 1969. The home-delivered prices represent list prices before deductions for quantity and other discounts.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Preliminary August sales: Preliminary data on total sales of fluid dairy products during August 1970 in 60 marketing areas averaged nearly the same as a year earlier. Effective August 1st, 8 Federal markets were merged into 2 new marketing areas.

July sales: Revised total sales of fluid products for July, in regulated markets (61 Federal and 5 State), averaged 1 percent above a year earlier.

Whole milk sales during July were down nearly 1 percent from July 1969.

Low-fat and skim milk sales in July were up over 8 percent from a year earlier and cumulative sales this year were up 9 percent from last year.

Milk and cream mixtures sales (mostly half and half) averaged nearly $6\frac{1}{2}$ percent below July 1969, but total cream sales (sweet and sour) were equal to a year earlier.

Milk receipts: August receipts of milk from producers at plants regulated for 62 marketing areas (58 Federal and 4 State) were up 3 percent from a year earlier. The number of producers delivering milk to plants for these same markets was down 2 percent from August 1969.

Milk production: United States milk production in September was estimated at 9.25 billion pounds, 1 percent more than a year earlier. September output provided 1.50 pounds of milk per person daily for all uses -- equal to last year's supply but less than the 1.53 pounds for August. Production during the first 9 months of 1970 was 0.4 percent more than a year earlier.

MILK PRICE HIGHLIGHTS

Class I prices: Early November prices paid by dealers for milk used for fluid purposes (Class I) averaged $7.05 per hundredweight for about 150 markets, according to the Crop Reporting Board. This average was 7 cents above October and 19 cents above a year earlier. Gains ranged from 8 cents in the West South Central and Pacific Regions to 27 cents in the East South Central Region.

Store milk prices: Store prices to consumers in 25 major cities in early November averaged 57.7 cents per half gallon for the most common grade of whole milk. This price was 0.3 cent lower than October but about 2.8 cents above a year earlier.

Home-delivered prices: Prices for home-delivered milk averaged 65.2 cents per half gallon in November for 25 major cities. This price was the same as last month. The home-delivered price represents list prices before deductions for quantity and other discounts.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Preliminary September sales: Preliminary data on total sales of fluid dairy products during September 1970 in 60 marketing areas averaged nearly the same as a year earlier. Total sales for the first 9 months of 1970 averaged about the same as a year earlier.

August sales: Revised total sales of fluid products for August in regulated markets (55 Federal and 5 State) averaged nearly 98 million pounds daily, the same as a year earlier.

Whole milk sales during August were down nearly 2 percent from a year earlier.

Low-fat and skim milk sales in August were up 7 percent from August 1969 and the cumulative sales this year continue to be up 9 percent from last year.

Milk and cream mixtures sales (mostly half and half) averaged nearly 8 percent below August 1969. Total cream sales (sweet and sour) for August were equal to August 1969.

Milk receipts: September receipts of milk from producers at plants regulated for 62 marketing areas (58 Federal and 4 State) were up nearly 3 percent from a year earlier. The number of producers delivering milk to plants for these same markets was down nearly 2.5 percent from September 1969.

Milk production: United States milk production in October was estimated at 9,248 million pounds, 1 percent more than a year earlier. October output provided 1.45 pounds of milk per person daily for all uses -- equal to last October's supply but less than the 1.50 pounds for September this year. Production for the first 10 months of 1970 was 0.5 percent more than a year earlier.

Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.
2/ Markets located in the New York-New Jersey Federal Order (Middle Atlantic) revised f.o.b. city minimums changed to agree with specified freight zones under the order. East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.

SALES OF FLUID DAIRY PRODUCTS AND RECEIPTS OF MILK FROM PRODUCERS

Preliminary October sales: Preliminary data on total sales of fluid dairy products during October 1970 in 60 marketing areas averaged nearly 1 percent above a year earlier. Total sales for the first 10 months of 1970 averaged about 6 percent below a year earlier.

September sales: Revised total sales of fluid products for September in 60 regulated markets (55 Federal and 5 States) averaged 1 percent below last year's 3.3 billion pounds.

Whole milk sales during September were down nearly 3 percent from a year earlier sales of 2.6 billion pounds.

Low-fat and skim milk sales in September were nearly 8 percent above a year earlier sales of 633 million pounds. The cumulative sales this year continue to be up nearly 9 percent from last year.

Milk and cream mixtures sales (mostly half and half) averaged nearly 8 percent below September 1969 sales of 36 million pounds. Sweet and sour cream sales were up nearly 1 percent above the 19.5 million pounds for September 1969.

Milk receipts: October receipts of milk from producers at plants regulated for 62 marketing areas (58 Federal and 4 States) were up 4.5 percent from a year earlier. The number of producers delivering milk to plants for these same markets was down nearly 2 percent from October 1969.

Milk production: United States milk production in November was estimated at 8,835 million pounds, 2 percent more than a year earlier. November output provided 1.43 pounds of milk per person daily for all uses, slightly more than the 1.42 pounds a year earlier but less than the October supply of 1.45 pounds. Production for the first 11 months of 1970 was 0.6 percent more than a year earlier.

1/ Regional and U. S. average based on prices for individual markets weighted by population. Prices for Federal-order markets include prevailing premiums above minimum Class I prices, as reported by principal producers' associations. Premiums may not apply to all Class I milk. Prices in this table do not represent returns to producers. Blend prices paid to producers, based on proportions used in fluid and manufactured products, are shown by markets in Table 6.
2/ Markets located in the New York-New Jersey Federal Order (Middle Atlantic) revised f.o.b. city minimums changed to agree with specified freight zones under the order. East North Central revised to include 26 cent service and freight charges for the Chicago market not previously included.
3/ Revised.
